

Important Track Product Registration

Product registration should be done within 30 days of purchase. By registering this product, Camoplast can better understand the geographical areas and various applications in which our tracks are being used. It also allows us to follow up with customers from time to time in order to determine product performance, dealer support, and overall customer satisfaction.

What do you need to do.....

If equipped on a new machine, or if a replacement set was purchased, please send a single card with information for both tracks. If the purchase was for a single track, please indicate which side of the machine it was installed.

*Part and serial # information can be found on the side of the track as shown below:

CAMOPLAST	R222974/651-1604	MMYY	XXXXX	R
Manufacturer	OEM Part Number	Camoplast Part Number	Date Code/Serial Number	

Note: Information is confidential. We will not share this information with any 3rd party.
